Design Decisions

ID	Conditions / Actions	Test Case 1	Test Case 2	Test Case 3	Test Case 4	Test Case 5
Condition 1	Valid URL (Job Openings page)	T	T	T	T	F
Condition 2	User Name filled & format is valid	T	F	T	T	X
Condition 3	Date filled & format is valid	T	T	F	T	X
Condition 4	Comment filled & format valid	T	X	X	F	X
Action 1	Application submission reached & info message displayed	Execute				
Action 2	Unfilled / Invalid User Name : Form can't be submitted		Execute			
Action 3	Unfilled / Invalid Date : Form can't be submitted			Execute		
Action 4	Unfilled / Invalid Comment : Form can't be submitted				Execute	
Action 5	Test terminates (Test case wait 20 seconds implicitly to get the page loaded, then quits from test)					X

Test Case 1

Test case requires 3 inputs to Submit the form: User Name, Date and Comment. Date handled dynamically, based to the current system time.

As per the requirement

User Name should be filled with any value.

Date should be filled filled with any date value.

Comment should be filled with any value.

Provide valid User Name+Date+Comment and Submit the Form : Application submission reached & info message displayed.

Test Case 2

No naming restriction to User Name, but if it is not filled : Form can't be submitted.

Test Case 3

No restriction to validity of Date, but if it is not filled : Form can't be submitted.

Test Case 4

No formatting restriction to Comment text, but if is is not filled : Form can't be submitted.
